## DETAIL ACTION

### ***Notice to Applicant(s)***

1. This office action is responsive to the amendment filed on October 31, 2006. Claims 1-18 are still pending.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4 and 9-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Myr (2001/0029425).

4. As per claim 1, Myr discloses an information processing device which includes a statistic traffic information having a plurality of data classifying information and statistic condition information (see at least figure 14 and the related text), a date classification modifier for modifying the plurality of pieces of data classifying information (see at least figure 13, claims 4 and 11).

5. As per claim 2, Myr discloses the pieces of data information in a plurality of calendar-like form (see at least figure 14).
6. As per claim 9, Myr further discloses a positional information, a route searcher and notification control section as shown in at least figure 1 and the related text.
7. As per claims 10-12, Myr also discloses a storage section for storing data and means for updating the data (see at least figures 13-16).
8. As per claims 13, Myr further discloses a terminal unit for exchange variable pieces of information (see at least figure 1, item 10).
9. With respect to claims 14-18, the limitations of these claims have been noted in the rejections above. They are therefore considered rejected as set forth above.
10. Claims 3 and 5-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Remarks***

11. Claims 1, 2, 4 and 9-18 are rejected. Claims 3 and 5-8 are objected.
12. Applicant's arguments filed on October 31, 2006 have been fully considered but they are not deemed to be persuasive.
13. In the amendment, applicants essentially argue that the Myr reference fails to disclose the date classifier modification. However, upon examination of the claims, the references cited clearly cover the subject matter AS CLAIMED by the applicants as shown in at least figure 13 and claims 4 and 11. Therefore, the rejection under 35 U.S.C. § 102 above is considered to be proper.

14. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

15. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
